# Online Verification

This project delivered a working Online Verification system to the county workers of the Work First, Medicaid, Food Stamp, Child Care and Child Support Enforcement programs. It is a web-based system available to the workers through the use of a standard web browser. No other software will be necessary on the users' work stations.

The system was developed with an N-Tier, component based design. There is a secure login and secure, encrypted communications. The verification functions delivered are those considered of the highest priority for the workers:

- DHHS
  - EIS – Work First, Medicaid, Special Assistance
  - EPICS – Enterprise Program Integrity Control System
  - CIP – Crisis Intervention Program
  - LIEAP – Low Income Energy Assistance Program
  - FSIS – Food Stamps
  - CNDS – Common Name Data Service
  - ACTS – Child Support Enforcement
  - SCCR – Subsidized Child Care Reimbursement System
- ESC – employment and unemployment insurance information
- DOC – offender information from the Department of Correction
- DMV – vehicle registration and valuation
- Federal –
  - SOLQ – Social Security Administration
  - SDX – SSI participation
  - BENDEX – Social Security benefits received
